Allowable Subject Matter

Applicant's amendment of 11-7-02 has overcome the previous objection on claims 66 and 67. Thus, said objection is withdrawn herein for the allowance of claims 62-97.

Reason for Allowance

The following is an examiner's statement of reasons for allowance:

The invention is drawn to compounds of substituted 2-oxo-(1-(2H)-pyrid-1-yl)-acetamide. The closest reference, **Blagg et. al.** (US'627 cited on the IDS), discloses compounds of substituted 2-oxo-(1-(2H)-pyrid-1-yl)-acetamide. However, the disclosed compounds are substituted with a bicyclic system as opposed to a monocycle as represented by the instant variable Y^0 . Furthermore, the effective filing date of US'627 does not antedate the effective filing date of the instant application. Thus said reference is not even a competent prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
